OUR MISSION

Founded in 1925, **the Kosciuszko Foundation** is dedicated to promoting and strengthening understanding and friendship between the peoples of Poland and the United States through educational, scientific and cultural exchanges and other related programs and activities.

Every year we award fellowships and grants to graduate students, scholars, scientists, professionals and artists and help increase the

visibility and prestige of Polish culture in America by sponsoring exhibits, publications, film festivals, performing arts such as concerts and recitals, and assist other institutions in achieving similar goals.

The Kosciuszko Foundation's fiscal year runs from July 1 through June 30. This report covers activities and expenditures for the fiscal year ending June 30, 2018.

The Kosciuszko Foundation Fellowships and Grants are awarded annually to Polish citizens for advanced study, research and teaching at institutions of higher learning, and scientific and medical centers in the United States.

The Kosciuszko Foundation Fellowships allow postgraduate scholars, professionals or artists who have completed their Ph.D. to undertake postdoctoral research in the U.S. for 3 - 9 months.

The Kosciuszko Foundation Grants allow graduate degree (M.A., M.S.) scholars, professionals or artists to conduct research in the U.S. for 3 - 9 months.

The Kosciuszko Foundation Teaching Fellowships allow university faculty members to teach classes at U.S. universities, for up to 10 months. The lectures should focus on Polish Studies, including Polish language teaching and Polish culture. Teaching fellows may also undertake or continue their research while lecturing.

SELECTION PROCESS

During the fiscal year 2018, 36 Polish scholars and scientists successfully completed their projects, receiving \$392,860 in support from the KF Foundation. The Fellows and Grantees had been carefully chosen for the program in a highly selective screening process.

Members of the U.S. Advisory Committee together with members of the Polish Academic

Commission participated in personal interview sessions held at the University of Warsaw's Kolegium Artes Liberales in Warsaw, Poland. All interviews were conducted in English, thereby evaluating the English proficiency of the candidates. Each interview lasted approximately 30 minutes, including Committee discussions prior to and after each session. Discussions at the end of each interview created a basis for evaluating the overall excellence taking into consideration the following factors:

- **Candidate's qualifications and accomplishments**
- **Importance of the project**
- **Written proposal**
- **Site of acceptance**
- **Overall impression of an applicant's presentation**

The Committee had an opportunity to review the files of all candidates beforehand in order to evaluate the merit of the candidates' research proposals, their clarity and relevance, and the persuasiveness of their arguments for conducting research in the United States.

For the academic year 2017/18 all applications were reviewed by the New York office and subsequently prepared and presented for evaluation by the two Committees. 86 applications were received, and of 77 applicants ranked for possible funding, 40 were matched with funds and recommended for consideration.

The KF Foundation would like to take this opportunity to express its sincere appreciation to the members of the U.S. and Polish Academic Advisory Committees, whose members reviewed and interviewed all of the applicants for the Exchange Program to the United States.

Members of the Academic Advisory Committee for the 2017/18 Exchange Program to the United States

With Professor Luca Ferrero at Department of Philosophy, College of Humanities, Arts & Social Sciences, University of California Riverside. Project's results and future perspective Presented his research on Tadeusz Kotarbiński's action theory at: "Why Do Planning Agents Need Psychological Flexibility?" HULT International Business School. Attended American Philosophical Association Pacific Division 2018 in San Diego and prepared a draft of a scientific paper, presented at a conference in Chicago (AOM 2018 Improving Lives, 10-14.08).	\$2 000 THE STANISLAW CHYLINSKI I FUND \$3 500 CETNAROWSKI FUND \$3 500 ROEHR FUND
5. Matuszkiewicz, Maria Ph.D. in Philosophy, University of Warsaw	A 4-month research on singular contents and their role in psychological explanation to propose a theory of mental contents: that mental contents ought to be individuated in terms of truth-conditions and that the notion of content should play an explanatory role in psychology, with Prof. Agustin Rayo, Prof. Robert Stalnaker and Prof. Stephen Yablo at Massachusetts Institute of Technology. Project's results and future perspective Presented research results: conference for the Italian Society for Cognitive Science in Genoa, KOGWIS Conference in Darmstadt, European Society for Philosophy and Psychology in Rijeka and Polish Society for Cognitive Science Conference in Krakow. Submitted a paper "Are singular thoughts a natural kind?" to the European Journal for Philosophy.	\$6 000 THE TARSKI FUND \$6 000 FREES FUND
6. Myk, Malgorzata Assistant Professor, University of Lodz, Ph.D. in American Literature	A 3-month research on the work of American avant-garde author Leslie Scalapino "Upping the Ante: Speculative Materialism of Leslie Scalapino" framed in the context of the philosophies of Catherine Malabou and Quentin Meillassoux at the San Diego University Library, California with Professor Michael Davidson. Project's results and future perspective Research results will be published in a book manuscript dedicated to Leslie Scalapino.	\$9 000 THE JARZEMBSKI FUND

7. Oleszczyk, Michal Adjunct Professor, University of Warsaw Ph.D. in American Studies	A 1-month project dedicated to translation of Karol Irzykowski's seminal work of early Polish film theory "The Tenth Muse" into English and writing a scholarly essay comparing Irzykowski and early American film theorists, with Professor Dana Polan, NYU. Project's results and future perspective Wrote an article comparing Irzykowski's insights with those of his American contemporaries.	\$3 000 THE KUSIELEWICZ FUND
8. Pacewicz, Krzysztof Ph.D. student, Faculty of "Artes Liberales, University of Warsaw	A 4-month research into biopower which can be understood as an endeavor to establish control over corporeal boundaries, and specifically over body fluids, as they pose a threat to the stability of individual and political bodies, constantly and chaotically flowing between individuals and populations, with Elzbieta Matynia Professor of Sociology and Liberal Studies and Director of the Transregional Center for Democratic Studies and Dominic Pettman, Chair of the Committee on Liberal Studies. Project's results and future perspective Presented a translation of fragments of Mr. Pacewicz's book, "Fluks. Community of Bodily Fluids." Wrote 120 pages of his Ph.D. thesis.	\$9 000 THE JARZEMBSKI FUND
9. Prokopowicz, Piotr Assistant Professor, Jagiellonian University Ph.D. in Sociology	A 4-month research whether organizational cultures of conflict management are shaped by leadership practices, or if leaders are formed by the conflict cultures of their organizations, in co-operation with the Culture Lab at the University of Maryland with Prof. Michele Gelfand. Project's results and future perspective Prof. Prokopowicz wrote a draft of a paper "Masters of both: exploring the relationship between cultural tightness-looseness and innovation" which was submitted for publication in the Academy of Management Discoveries. Co-wrote a grant proposal for the National Science Foundation "Paradoxes of tightness-looseness: measuring the relationship of norms, leadership and organizational innovation". Prepared a draft article for Harvard Business Review entitled "Get Your Act Tight: How Much Freedom is Too Much for Tesla?"	\$6 000 THE STANISLAW CHYLINSKI I FUND \$3 000 THE STANISLAW CHYLINSKI FUND
10. Pudlocki, Tomasz Professor, Jagiellonian University, Ph.D. Habilitation in History	A 3-month research on cooperation between Polish and American scholars and journalists with Kumru Toktamis Ph.D. at Pratt Institute, Department of Social Science and Cultural Science, School of Liberal Arts and Sciences. Project's results and future perspective Attended conferences: "15th Annual Tadeusz Kosciuszko Conference" at West Point, delivered papers: "Behind the Great Scene: Polish-American Diplomatic Contacts, 1914-1919" at Columbia University and "Polish PR in the US Between Two Wars – Example of "Poland" Magazine." Conducted lectures in various institutions: Polish People's University, Amber Senior Club, Pilsudski Institute of America. Published a paper "Challenging the reality – James MacCracken as a lecturer at the Jagiellonian University (1946–1948)."	\$6 000 THE STANISLAW CHYLINSKI FUND \$3 000 THE BASISTA FUND
11. Radziwinowicz, Agnieszka Research Assistant, Centre of Migration Research University	A 5-month research on Mexican migrants' experience of being endangered with deportation and separation with Joanna Derby, Associate Professor at Sociology Department, University of Albany, Jason De León, Assistant Prof., Department of Anthropology, University of Michigan. Project's results and future perspective	\$12 000 THE JARZEMBSKI FUND

of Warsaw Ph.D. in Sociology	Publications: Ethnomoralities of Care in Transnational Families: Care Intentions as a Missing Link between Norms and Arrangements. Journal of Family Studies.	
12. Sawczuk, Tomasz Ph.D. candidate, University of Warsaw, Institute of Philosophy	A 3-month research on the methodology of Richard Rorty's pragmatist liberalism, with Prof. Robert Brandom, University of Pittsburgh and Prof. Eduardo Mendietta, The Pennsylvania State University. Project's results and future perspective Completed two-full chapters of the Ph.D. dissertation.	\$9 000 THE JARZEMBSKI FUND
13. Stefaniak, Anna Ph.D. Student in Psychology, Faculty of Psychology, University of Warsaw	A 4-month research on factors that promote the support of majority members for collective action taken by minority members aimed at enhancing social equality, thereby contributing to the psychological theory on collective action on behalf of outgroups, with Professor Robyn Mallett at Loyola University Chicago. Project's results and future perspective Presented her work at a Social Area Research Series monthly seminar for social psychologists at the Department of Psychology at Loyola University Chicago.	\$12 000 THE FRESS FUND
14. Wojdon, Joanna Associate Professor, University of Wrocław Ph.D. Habilitation in History	A 3-month research on a history of the Polish American Congress under presidency of Edward Moskal with Maciej Siekierski, Ph.D. at Hoover Institution, Stanford University. SCIENCES

RECIPIENT	RESEARCH/STUDY	FUND
1. Kowalski, Karol Assistant Professor, Warsaw University of Technology Ph.D. Habilitation in Civil Engineering	A 4-month research whether the sustainability in road construction can be achieved by works in the scope of materials and technology to determine most suitable protocols to limit environmental impact of road construction with Jan Olek, Professor of Civil Engineering. Project's results and future perspective Co-wrote a paper "Sustainable Concrete Performance—CO ₂ -Emission." Conducted program seminar lecture after coming back to Poland.	\$12 000 THE SKŁODOWSKA FUND
2. Kulakowski, Konrad Assistant Professor, AGH University of Science and Technology Ph.D. in Computer Science	A 4-month research on the resistance of methods and decision-making systems to manipulation by analyzing methods relating to the social choice models like Llull voting systems, with Michael Soltys, Professor and Chair of Computer Science California State University Channel Islands. Project's results and future perspective Established contacts with researchers working at this CSUSI and opened opportunities for Polish students to go to CSUCI and collaborate with Prof. Soltys and the other researchers employed at CSUCI. Publications: Konrad Kulakowski, Jirí Mazurek, Jaroslav Ramík, Michael Soltys: <i>When is the condition of order preservation met?</i> European Journal of Operational Research.	\$9 000 THE BRYZINSKI FUND

3. Mrukiewicz, Mateusz Assistant Professor, Military University of Technology, Ph.D. in Materials Science	A 3-month research to explore mechanisms of electro-optic effects in liquid crystals, with Oleg D. Lavrentovich, Trustees Research Professor, Liquid Crystal Institute & Chemical Physics Interdisciplinary Program, Kent State University, Ohio. Project's results and future perspective Publications: "Fluorinated smectics – New liquid crystalline medium for smart windows and memory displays" Journal Of Molecular Liquids, "Pretransitional effects in a mesogenic mixture under an electric field" Physical Review E, "Mid-wave infrared liquid crystal shutter for breathalyzer applications" Opto-Electronics Review.	\$9 000 THE TADEUSZ SENDZIMIR FUND
4. Przybek-Skrzypecka, Joanna M.D., The Medical University of Warsaw, Ph.D. student, Pharmacology	A 3-month research into causes of scars on cornea one of the leading causes of blindness and impaired visual acuity, with Leejee H Suh, M.D., Associate Professor of Ophthalmology, Harkness Eye Institute at Columbia University Medical Center in New York. Project's results and future perspective Contributed to a manuscript submitted to Investigative Ophthalmology and Visual Science journal.	\$6 500 THE STANISLAW CHYLINSKI FUND \$2 500 THE PASKOWSKI FUND
5. Roman, Maciej Assistant Professor, Institute of Nuclear Physics PAN, Ph.D. in Chemistry,	A 3-month research to test the selective recognition of prostate cancer cells expressing different levels of prostate-specific membrane antigen in vitro tumor models with ultra-high affinity surface-enhanced Raman scattering nanoprobe with Prof. Ishan Barman at Johns Hopkins University. Project's results and future perspective The results obtained gave new opportunities for further studies on the influence of ionizing radiation on cancer cells and tissues.	\$5 000 THE STANISLAW CHYLINSKI FUND \$4 000 THE TADEUSZ SENDZIMIR FUND
6. Skwarska, Anna Assistant Professor, Department of Pharmaceutical Technology and Biochemistry, Faculty of Chemistry, Gdansk University of Technology, Ph.D. in Biotechnology	An 8-month research to design more efficient treatment strategies to overcome low efficacy of inhibitors of receptor tyrosine kinase FLT3 and to help maintain their activity against acute myeloid leukemia cells residing in hypoxic bone marrow niches with Professor Marina Konopleva, M.D., Ph.D. Department of Leukemia at University of Texas. Project's results and future perspective Secured a 1-year contract as a visiting scientist from Poland at MD Anderson to continue studies on the role of autophagy in FLT3-mutated leukemia cells. Participated in several projects involving testing of new drugs against acute myeloid leukemia.	\$12 000 THE TADEUSZ SENDZIMIR FUND
7. Stefaniak, Elzbieta Professor, the John Paul II Catholic University of Lublin, Ph.D. in Chemistry	A 3-month research to deliver unambiguous tracers of airborne carbonaceous particles as the evidence leading to their emitters, with Professor Mark P. Fischer, Department of Geology and Environmental Geosciences, Northern Illinois University. Project's results and future perspective Conducted and analyzed dust sampling campaigns both in Poland and in the United States.	\$9 000 THE TADEUSZ SENDZIMIR FUND
8. Stefaniak, Ewelina Ph.D. student, Polish Academy of Sciences	A 3-month research to investigate potential function of β-amyloid peptides in copper delivery to the hCtr1 receptor and to elucidate their role in physiology with Assistant Professor Kathryn L. Haas, Ph.D. at Saint Mary's College Notre Dame. Project's results and future perspective Research poster presented at Gordon Research Seminar in Ventura, California. Participated in 254th American Chemical Society National Meeting, Washington D.C.	\$9 000 THE TADEUSZ SENDZIMIR FUND

9. Stepniowski, Wojciech Assistant Professor, Military University of Technology	A 3-month research to investigate anodization of copper. Formed copper oxides will serve then as a material for photo-electrochemical water splitting into hydrogen and oxygen, contributing in renewable energy harvesting, with Professor Wojciech Z. Misiolek, Loewy Institute at Department of Materials Science and Engineering, Lehigh University. Project's results and future perspective Publication of review paper on copper anodizing: W.J. Stępnowski, W.Z. Misiolek "Review of Fabrication Methods, Physical Properties, and Applications of Nanostructured Copper Oxides Formed via Electrochemical Oxidation" <i>Nanomaterials</i>. Joined publication with prof. Jinsub Choi's Group from Inha University, South Korea on copper anodizing. Extended appointment as Visiting Scientist at Lehigh University.	\$9 000 THE TADEUSZ SENDZIMIR FUND
10. Sterczewski, Lukasz Ph.D. Student, Wrocław University of Technology	A 6-month research to use dual comb terahertz spectroscopy to monitor the drug degradation level and detect its counterfeit in original packaging with Prof. Gerard Wysocki at Princeton, Jonas Westberg, Ph.D. – post-doc researcher at Princeton and Prof. Edward Plinski – professor at Wrocław University of Science and Technology (remote collaboration). Project's results and future perspective The interband cascade lasers (ICLs) architecture was selected by NASA for the successful detection of methane on Mars in the Curiosity Mission. In the future, ICL-based dual comb spectrometers, such as the one presented, may be harnessed for exploration of space in search for organic compounds associated with life on our planet. Contributed to two oral talks at the prestigious CLEO Conference in San Jose, CA in May 2018.	\$18 000 THE TADEUSZ SENDZIMIR FUND
11. Surma, Martyna Lecturer, Wrocław University of Environmental and Life Sciences Ph.D. in Environmental Planning and Protection	A 4-month research to integrate the GI related sciences interdisciplinary (urban planning, civil engineering, urban hydrology, data science, environmental governance) to better manage natural resources for the future, adapt the urban districts to effective mitigation of climate change and better cope with sustainability issues, with Professor Patricia J. Culligan at Columbia University. Project's results and future perspective Dr. Surma participated in weekly research seminars, collected publications through the Avery library world resources, participated in the events organized by Urban Sustainability NYC, the 4th Annual Agri and Business Summit, in the Side-Event during the 2018 High-Level Political Forum 'Sustainable Development Goal 17: Cooperation As The Key To Success – Lessons From Poland', hosted by Minister of Entrepreneurship and Technology. In September 2019 she will present a full paper 'Green Infrastructure Implementation for Climate Adaptation Strategies of Urban Areas' during 'International Conference on Sustainable Development' at Columbia University.	\$12 000 THE JAN PAUL ZALESKI MEMORIAL SCHOLARSHIP FUND
12. Toma Monika Ph.D. Student – Department of Molecular Genetics, Institute of Biochemistry, Faculty	An internship in Department of Microbiology and Immunology to learn to the innovative methods of gene expression and mutation analysis to be used in Ph.D. research on response of solid tumors to inhibitors of DNA repair proteins with T. Skorski Ph.D, M.D. at Temple University. Project's results and future perspective Co-authored <i>Tyrosine kinase inhibitor-induced defects in DNA</i>	\$9 000 THE STANISLAW CHYLINSKI FUND

of Biology and Environmental Protection, University of Lodz	<i>repair sensitize FLT3(1TD)-positive leukemia cells to PARP1 inhibitors.</i> ; Blood. 2018.	
13. Tomaszek, Tomasz Assistant Professor, Rzeszow University of Technology, Ph.D. in History and Conservation of Monuments of Architecture and Urbanism	A 3-month research on preservation of cross-cultural vernacular wooden architecture from the southern United States with Carroll Van West, Ph.D. Director of the Center for Historic Preservation MTSU, Tennessee State Historian, Professor of the Department of History and Stacey Graham, Ph.D. Research Professor of the Center for Historic Preservation MTSU. Project's results and future perspective An advanced overview of the state of preservation of wooden log architecture in Southern USA and the conservation methodologies used in this area historically as well as today. Collected data will be used to compile a monograph. Prof. Tomaszek also collaborated with colleagues from the Center for Historic Preservation at MTSU on two academic papers.	\$9 000 THE JAN PAUL ZALESKI MEMORIAL SCHOLARSHIP FUND
14. Urbaniak, Magdalena Researcher, European Regional Centre for Ecohydrology of the Polish Academy of Sciences, Ph.D., University of Lodz	A 3-month research to assess and compare the pollution status, with a special emphasis on emerging contaminants and endocrine disruptors of two rivers with different anthropogenic impacts using an Ecohydrology approach, with Prof. Kurunthachalam Kannan at Department of Environmental Health Sciences, SUNT at Albany. Project's results and future perspective A manuscript concerning the pollution status of Pilica River submitted to the journal Science of the Total Environment.	\$9 000 THE STANISLAW CHYLINSKI FUND
15. Ziolkowski, Patryk, Research and Teaching Assistant, Gdansk University of Technology MSc in Civil Engineering	A 4-month research to introduce a new way of looking at designing and decision-making processes in the context of constantly growing and changing modern cities, with Professor Andrzej S. Nowak, Elton & Lois G. Huff Eminent Scholar Chair, Department of Civil Engineering, Auburn University. Project's results and future perspective Participated in Sixty-First Annual Transportation Conference in Montgomery, Alabama. Wrote two papers, which will be sent to peer-reviewed journals, as well as three conference papers.	\$12 000 THE JAN PAUL ZALESKI MEMORIAL SCHOLARSHIP FUND

ART

RECIPIENT	RESEARCH/STUDY	FUND
1. Uchman, Agata Associate Researcher, Academy of Fine Arts in Warsaw	A 3-month research on textiles and technologies in view of costume design in a wide context of Art and Science with Sigríður Jóhannessdóttir, Professor of Costume Design and Technology and Sofia Pantouvaki, Professor of Costume at the George Washington University. Project's results and future perspective This research results will be used during lectures in Poland, also as a background for Ph.D. proposal and as inspiration for costume design artwork. Ms. Uchman prepared a digital printing and textile course syllabus in collaboration with GWU professors.	\$9 000 THE TADEUSZ SENDZIMIR FUND

LAW & ECONOMY

RECIPIENT	RESEARCH/STUDY	FUND
1. Mania, Karolina Assistant Professor, Pedagogical University of Cracow, Ph.D. in Law (Internet law), Jagiellonian University	A 3-month research on Alternative Dispute Resolution (ADR), an out-of-court form of resolving present and future disputes helping take the burden off the civil justice system and reduce the costs and length of the proceedings, to develop a comprehensive analysis of ADR and its electronic version (Online Dispute Resolution), with Professor of Law Jacqueline Nolan-Haley (School of Law, Fordham University), Professor Sarah E. Burns (School of Law, NYU), Professor of Law Franco Ferrari (School of Law, NYU). Project's results and future perspective Prepared papers based on the comparative legal studies and gathered materials for a monograph and a short report for NGOs and public authorities (planned in 2018 and 2019). Prof. Mania will tutor students on a course of practical use of ADR in the academic year of 2018/2019. She is also preparing a new course, which will be based on the information gathered at Fordham University. In May 2018 she organized a networking event at the Kosciuszko Foundation – Polish Science & Innovation Meetup NYC to meet Polish innovators, scientists, researchers, scholars and innovation stakeholders.	\$9 000 KOPERNIK FUND
2. Tworowska, Katarzyna M.A. in Economics and International Relations, Krakow University of Economics	A 10-month study as a Central European American Business Leader Scholar at Quinnipiac University. Project's results and future perspective Graduated from Quinnipiac University MBA program. Participated in internships at ConMed Corporation and Legg Mason.	\$25 000 NAPIORKOWSKI FUND
3. Uhma, Piotr Assistant Professor, Krakow University, Ph.D. in Public International Law, Jagiellonian University	A 3-month research to explore the interaction and reciprocity between cultural differences in sovereign states, international law, by placing a special emphasis upon the effects made by the cultural discrepancies on norms of international public law in the domains of human rights and security, with Harlan Grant Cohen, Associate Professor of Law, University of Georgia School of Law, Tom Ginsburg, Leo Spitz, Professor of International Law, Ludwig and Hilde Wolf Research Scholar, Chicago, Harold Hongju Koh, Sterling Professor of International Law, Yale Law School and David Kennedy, Manley O. Hudson Professor of Law, Director, Institute for Global Law and Policy, Harvard Law School. Project's results and future perspective As a part of the UGA delegation attended the Annual Meeting of the American Society of International Law (ASIL). Gave a lecture for the members of the Faculty of Law and students of the UGA. Plans for future cooperation: a joint application of Jagiellonian University and the UGA for a short-term exchange of researchers funded by the EU Erasmus+ program.	\$9 000 THE TAMARA PUSŁOWSKI FUND
4. Zybala, Dominika Ph. D. Student, John Paul II Catholic	A 3-month research on the legal aspects of the 9/11 attacks such as various compensation programs for victims and their families, with Leah Wortham, Professor Emerita of Law at The Catholic University of America.	\$8 000 POL AM FED FUND \$1 000

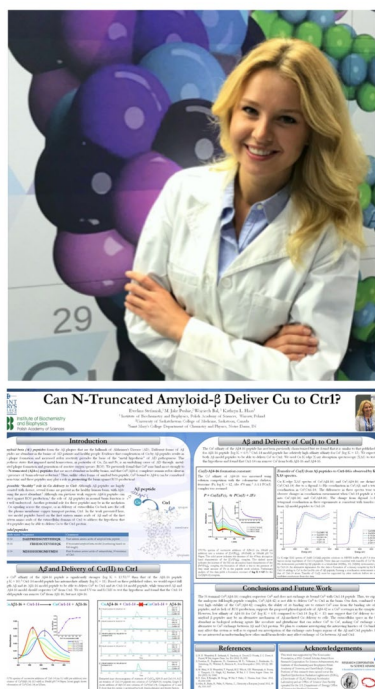

University	Project's results and future perspective Ms. Zybala wrote a significant part of her doctoral dissertation. She also participated in several meetings organized by the Washington think-tanks.	KOPERNIK FUND

AWARDEES REPORTS EXCERPTS

Ewelina Stefaniak: "My American experience began an early August 2017 and ended late January 2018. Thanks to The Kosciuszko Foundation I was able to do research for half year at Saint Mary's College in South Bend, Indiana. Dr Kathryn Haas was my supervisor during my internship, and because she is such a nice, productive and effective person, I learnt a lot from her. Our collaboration was very successful and currently we are working on manuscripts contain the data, which I obtain during my internship. The goal of the project was to investigate potential function of β -amyloid peptides in copper delivery to the hCtr1 receptor and to elucidate their role in physiology. The best way to show my work is this poster, which I presented at Gordon Research Seminar in Ventura, California (25-28.01). My research looks promising and I'm fully satisfied with the outcome. Gordon Research Seminar was not the only one scientific event in which I participated. In late August, I attended 254th American Chemical Society National Meeting where I met inspirational researches from around the world. I was able to share my ideas and received a lot of valuable advice, which I am going to apply in my future experiments in Poland. "

Tomasz Tomaszek: "(...)I would like to say, that all this studies were particularly very important for the comparison of preservation methods and methodologies in Eastern Europe and in the USA, and the same for better understanding of "wooden culture" in this parts of the world where wooden building was (and still is) essential part of building tradition. (...)At this point I would like to thank the Kosciuszko Foundation for the shown trust and support. Your help was essential for this project and without it all these efforts to carry out this research about wooden architecture preservation would not be possible. Therefore, I would like particularly to stress the importance of your mission of providing the Polish researchers the opportunities to advance their studies and allowing them confront their findings with colleagues from the USA."

Magdalena Urbaniak: "(...) The scholarship allowed me to expand my knowledge and research field significantly. I was working under the direct supervision of Prof. Kannan, recognized as the most highly cited researcher in the environmental field, and internationally recognized for his pioneering work in environmental health. (...) My overall impression of the Exchange program is that this scholarship is a cornerstone to boost career development and it serves as a key stepping stone toward internalization and mobility of young researchers. In particular, the integration of my scientific area, that is focused mostly of ecological aspects, with the research focus of the team of prof. Kannan can bring mutual benefits in future project activities performed by myself as well as by US institute."

Uchman Agata: "(...) I am very satisfied and thankful to have got a Kosciuszko Foundation grant and to be a part of GWU University for three months. The Textile Museum GWU is a foremost place to make a comprehensive research in the textile field. I was able to use galleries, textile laboratory, and an amazing library and got a lot of help and support from the museum staff and other researchers. The relation with the GWU professors was good, they helped me to understand the American educational modular and they accepted beforehand my future course proposition. Washington DC is a beautiful, multicultural city with a free access to all art museums and workshops. I enjoyed my stay there very much. I can say that without the American experience you can't be an intellectually mature artist."

THE AMERICAN CENTER OF POLISH CULTURE

DOMESTIC SCHOLARSHIP PROGRAMS FOR AMERICANS

\$308,160

82

Scholarships to Americans and Polish Americans, known collectively as “**domestic scholarships**” include four separate programs. These include the **Domestic Tuition Scholarship Program for Graduate Studies**; the **Graduate and Postgraduate Studies and Research Program for Americans in Poland**; the **Year Abroad Program in Poland**; and the **Summer Study Abroad Program**.

The majority of the Kosciuszko Foundation’s Tuition Scholarships are awarded for graduate level studies in the United States, however, a small number of funds are available for undergraduate students two (PACNJ and PNA) of which the Foundation administers on behalf of other organizations.

Tuition scholarships are available to U.S. citizens and permanent residents of Polish descent for graduate studies in any field at colleges and universities in the United States and to Americans of non-Polish descent whose studies at American universities are primarily focused on Polish subjects.

Tuition scholarships awarded under the Jeanette K. Nieciecka Scholarship Fund are awarded to New Jersey residents for undergraduate studies, first preference is given to New Jersey residents who are majoring in nursing, education and business. Scholarships for tuition may be awarded to Americans for graduate level studies in Poland such as **Medical studies at English Schools of Medicine**.

Massachusetts Federation of Polish Women’s

Clubs Scholarships are available to U.S. citizens of Polish descent residing in Massachusetts and to Polish citizens who are legal permanent residents of the U.S. residing in Massachusetts – scholarships are awarded for undergraduate studies in any field. **The Dr. Marie E. Zakrzewska Scholarship** of the **Massachusetts Federation of Polish Women’s Clubs** is awarded to a young woman who is pursuing an M.D. degree; first preference is given to a resident of Massachusetts.

Kosciuszko Foundation administers **the Polish American Club of North Jersey Scholarships on behalf of the Polish American Club of North Jersey**. Scholarships are awarded to members of the Club for undergraduate studies in the US.

Awards are competitive and are based on academic excellence with a minimum GPA of 3.0 and involvement in the Polish American community. Financial need is taken into consideration, and documentation proving Polish ancestry is required.

The scholarship application deadline was January 15th. Applications were screened to ensure eligibility and then grouped according to discipline. Applications were evaluated based on grade point average; recommendation letters; participation in Polish-American activities; the applicant’s personal statement; motivation and financial need. The in-house committee includes **Ms. Addy Tymczyszyn, Scholarship and Grant Officer for Americans, President and Executive Director, Marek Skulimowski**. After careful evaluation the successful candidates were

matched with appropriate endowment funds in accordance with the terms of each fund. **Eighty-two (82) candidates** were selected for scholarships. We are pleased to present the list of Tuition Scholarship for academic year 2017-2018 below.

The total for Tuition Scholarships awarded to Americans for the academic year 2017-2018, scholarships administered by the Kosciuszko Foundation on behalf of other organizations is \$266,775.

EXCHANGE PROGRAMS TO POLAND

The Kosciuszko Foundation's Exchange Programs to Poland include the **Graduate and Postgraduate Studies and Research in Poland program** and the **Year Abroad program at the Jagiellonian University's Center for Polish Language and Culture in the World**, located in Krakow and **Summer Studies Program**.

These programs provide U.S. citizens with opportunities to conduct studies and research projects in Poland as part of the Foundation's Exchange Program with the Polish Ministry of National Education and Sciences. Candidates receive funding from the Polish Ministry as well as the Kosciuszko Foundation. The Polish Ministry provides tuition waivers, and a modest stipend for housing and living expenses: 1,350 zloty per month of study/research. In addition to funding from the

Ministry, the Foundation provides each candidate with subsidies for living expenses. Graduate/Postgraduate candidates receive \$300 per month for the approved period of studies/research not to exceed nine months. Year Abroad candidates receive subsidies of \$900 per semester (equivalent to \$200 per month). Awards are made for one semester or a full academic year.

The amount of subsidies provided by the Kosciuszko Foundation for academic year 2017/18 for the Studies and Research program is \$2,400. KF funding for the Year Abroad program for 2017/18 is \$2,700. The total for both programs amounts to \$5,100. Support for these scholarships is provided by The Ted and Walter Wysocki Scholarship Fund.

Graduate/Postgraduate candidates must provide a clear and well-defined proposal for their study and research projects and must submit a letter of invitation from the Polish educational institution where their projects are to be conducted. Year Abroad applicants must demonstrate motivation for pursuing studies in Poland as related to their educational and professional goals.

All applications for Exchanges Programs to Poland were screened for completeness and eligibility by the KF Grants Department and approved by KF President and Executive Director, Marek Skulimowski. Applications for the Year Abroad program have also been reviewed and accepted by Prof. Waldemar Martyniuk, Director of the Center for Polish Language and Culture, at the Jagiellonian University in Krakow.

Teaching English in Poland

over **500** students

79 volunteer teachers

TEACHING ENGLISH IN POLAND (TEIP) was conducted under the auspices of the Kosciuszko Foundation. Polish students with three to five years of English studies in Polish schools are immersed in a mere two-week summer camp with an American staff of teachers, teaching assistants and Polish supervisors. American English is the operative language.

Since its inception the English teaching camps in Poland have been very popular. For 28 years they have been organized in many locations such as: Lomża, Ustka, Krakow, Plock, Gdansk, Ilawa, Olsztyn, Zakopane, Puławy, Zielona Góra, Myślenice, Tczew, Warszawa, Gołdap, Gorzów Wielkopolski, Limanowa, Zalecze Wielkie, Barlewicki, Otwock, Pinczow, Minsk Mazowiecki, Krynica i Siennica. Over 13 thousand Polish students have been exposed to the language program and nearly 2,300 American volunteers have participated as teachers or teaching assistants.

This year, 80 American teachers and teaching assistants volunteered for the program from over 20 U.S. states. Over 500 Polish students attended the camps located in Zalecze Wielkie, Otwock, Minsk Mazowiecki, Krynica Zdroj, and Krakow. The Kosciuszko Foundation and our Polish partners offered seven choices to students: four English Language/American Culture Camp Programs and two Arts Enriched English Language Camp Programs. The programs included students ages seven to eighteen. As a result, a larger

number of Polish students and American teachers and assistants had the opportunity to share their cross-cultural experiences.

The Kosciuszko Foundation expresses its gratitude to the following TEIP Directors and Leaders:

1. Mary Kay Pieski, PH.D. - Program Director
2. Teresa Wojcik, Ph.D. - Program Deputy Director
3. Patricia Grutzmacher, Ph.D.
4. Cecilia Kocinski-Mulder
5. Dawn Woyak
6. Dolly Parker
7. Jeff Attick
8. Kristin Miller
9. Mary Ann Stefko
10. Patricia Grutzmacher
11. Patricia Sheetz
12. Tom Rusnak

Heartfelt thanks to our partners in Poland who supported the Teaching English in Poland Program:

- the Foundation for the Development of Education System for providing funds in Poland for training workshops, webinars and publications.
- Kosciuszko Foundation - Poland for their methodological input and camp oversight.

The Kosciuszko Foundation is looking forward to the next year's 29th edition of the Teaching English in Poland with new locations and more students to learn English, or rather to be taught in English through sports, music, drama, art and variety of many other activities.

DONATIONS RAISED

On Saturday night, April 28th, 2018 at the Grand Ballroom of the Plaza Hotel the Kosciuszko Foundation held its 83rd Annual Dinner & Ball – celebrating 100th Anniversary of Poland's Independence.

On April 28th, 2018 along with the honorary guests distinguished honorees, presenters, sponsors and supporters, we were celebrating the 100th Anniversary of Poland's Independence. Without the Polish-American community, Poland would not have been able to accomplish critical milestones throughout the last century. As our organization has grown, we have made it our mission to enrich the lives of academically gifted students of Polish descent, helping them achieve their dreams and promote the Polish culture in America.

Mr. Wojciech Jackowski, President of the Polish American Business Club was the 83rd Annual Dinner & Ball Chairman.

Many special guests attended this event: Consul General of Poland in New York - Maciej Golubiewski with his wife and former US Ambassador to Estonia - Aldona Wos, Mr. Tom Rosicki - Master of Ceremony.

Gerard Carelli Orchestra gave a music performance with a special vocal presentation by Katarzyna Joanna Sperczynska and Dayle Newmyer as a pianist. The festivities opened with USMMA Fanfare Trumpet Squadron followed by a performance of the Polish American Folk Dance Company led by Andrzej Buczek.

2018 KF Ball Honorees

The Medal of Recognition recipient Professor **Stanley Wojcicki**, former chair of the Physics Department at Stanford University and the founder and spokesperson of the international consortium known as MINOS (Main Injector Neutrino Oscillation Search).

Krzysztof Wodiczko, a Polish-born artist received **The Kosciuszko Foundation Pioneer Award**. His large-scale slide and video projections on architectural facades and monuments are recognized on both sides of the ocean. Wodiczko's work can be found in numerous public collections

AFFILIATE GROUPS

The Kosciuszko Foundation succeeds in achieving its mission throughout the United States and in Poland through the support and cooperation of a number of volunteer groups. Primary among these groups are the national Advisory Council and the Foundation's eight regional chapters, located in New England, Ohio, Philadelphia, Pittsburgh, Rocky Mountain (Colorado), Texas, Western New York, and two offices in Washington DC Center and Kosciuszko Foundation Poland in Warsaw. In addition to these, the Foundation is aided in its work by a number of other affiliate groups, which address specific areas of interest and needs on behalf of the Kosciuszko Foundation. These include the National Advisory Council, the Pro Arte League, the Polish American Teachers Association. Affiliate Groups play an important role in furthering the Kosciuszko Foundation's goals. All these groups are independent in their work, with their own membership roster and slates of officers, but are nevertheless formal affiliates of the Foundation. Each is dedicated to a specific area of activity in helping the Foundation.

The National Advisory Council

The National Advisory Council is composed of several individual members of the Kosciuszko Foundation, as well as presidents of the Kosciuszko Foundation's nine Chapters. The Council is designed from broad representation throughout the United States provides the Board of Trustees with valuable advice on how to expand membership and donations, by highlighting and discussing current trends amongst the Foundation's target groups, and developing ideas on how to attract new membership and donations given these trends. Its members are longtime Foundation members who have their finger on the pulse of the Foundation, its philosophy, and its future.

Chapters of the Kosciuszko Foundation

The Kosciuszko Foundation chapters, located in New England, Ohio, Philadelphia, Pittsburgh, Rocky Mountain (Colorado), Texas, Western New York, and two offices in Washington DC Center and Kosciuszko Foundation Poland in Warsaw, play a vital role in maintaining the Foundation's reputation as a nationwide organization. Run strictly by local volunteers who commit considerable time and effort to the task of

soliciting members in their geographic areas, organizing local concerts, awards banquets, and other key fundraising events, representatives of nine Kosciuszko Foundation Chapters act as local ambassadors, promoting the Foundation's mission in local regions. Through the participation of local chapter presidents on the National Advisory Council, chapters also help keep the Board of Trustees, officers, and staff informed of local trends in local communities.

The Pro Arte League

The Pro-Arte League of the Kosciuszko Foundation was organized in 1970 by a group of women Foundation Members to help beautify, restore, and preserve the rooms of the Foundation House. This active group has continued to schedule Fundraising Events to promote its mission. The restoration of the Foundation Art Museum Gallery will continue to be the major focus of the group. Many of the collectible paintings are in need of professional attention, environment and the aging of materials must now be addressed. Beginning with fashion show fundraisers in the early part of its history, the League now uses its annual fundraising luncheon as a showcase for young Polish-American musicians and other fine Polish and Polish American performing artists.

The Polish American Teachers Association

Polish American Teachers Association (PATA) was founded in 1973 in order to help accurately inform the American public about Poland and the role and contributions of Polish Americans in American society. PATA's relationship with the Kosciuszko Foundation began shortly after formation. PATA sponsors a rich schedule of events and activities, including essay and visual arts competitions. One of its more popular programs include a storytelling competition, during which students of Polish heritage who attend Polish supplementary schools gather at the Kosciuszko Foundation in March to tell stories from Polish folklore. PATA also holds the popular Annual Mikolajki/St. Nicholas Day celebration, which teaches children about traditional Polish Christmas celebrations. PATA has also been a reliable supporter of the Foundation's Teaching English in Poland Program, through regular cash contributions as well as Program volunteers
