# ANNUAL REPORT 2022

# OUR MISSION

**F**ounded in 1925, the Kosciuszko Foundation is dedicated to promoting and strengthening understanding and friendship between the peoples of Poland and the United States through educational, scientific, and cultural exchanges and other related programs and activities.

Every year we award fellowships and grants to graduate students, scholars, scientists, professionals, and artists and help increase the visibility and prestige of Polish culture in America by sponsoring exhibits, publications, film festivals, performing arts such as concerts and recitals, and assist other institutions in achieving similar goals.

The Kosciuszko Foundation's fiscal year runs from July 1 through June 30. This report covers activities and expenditures for the fiscal year ending June 30, 2022.

CHAPTER ONE

# EXCHANGE PROGRAM to the UNITED STATES

2021/2022 academic year

## EXCHANGE PROGRAM TO THE UNITED STATES

The KF Exchange Program to the United States enables Polish scholars to pursue research, artistic, or study projects in U.S. institutions. In the academic year 2021/2022, the KF awarded 26 Fellowships, 20 Grants, and 2 Teaching Fellowships. In total, the **48** awardees received **\$573,000** in funding – the highest amount in the history of this Program.

### SELECTION PROCESS:

The Foundation received a total of 81 applications for the Exchange Program to the United States, and Exchange Program Officer, Ms. Malgorzata Szymanska, checked all applications to verify if they met eligibility criteria and presented qualifying applications to the U.S. Advisory Committee Members, who selected 59 candidates for online interviews in Poland. During the period of February 15th to February 26th, 2021, members of the U.S. Advisory Committee, together with members of the Polish Academic Commission, conducted online interviews.

All interviews were conducted in English, thereby evaluating the English proficiency of the candidates. Each interview lasted approximately 30 minutes, including Committee discussions prior to and

after each session. Following the interviews, the candidates were ranked on a scale of (10-0) with the highest score being 10. Discussions at the conclusion of each interview created a base for evaluating the overall excellence of each applicant, taking into consideration the following factors: candidate's qualifications and accomplishments, importance of the project, written proposal, site of acceptance and overall impression of an applicant's presentation. The Committee had an opportunity to review the files of all candidates prior to the interview, to properly evaluate the merit of the candidates' research proposals, the clarity of their presentation and seriousness of purpose, and the persuasiveness of their arguments for conducting research in the United States.

## THE AWARDS WITHIN THE PROGRAM ARE DIVIDED INTO THREE CATEGORIES

These categories help us support both young scholars, who are just beginning their academic careers, as well as those who have years of experience and expertise in their fields of specialization. There are no restrictions on fields of study for any of the grants and fellowships and the KF Exchange Program to the US is recognized for supporting the widest selection of disciplines of studies and research. In the academic year 2021/2022, the KF awardees conducted their research in 25 different disciplines ranging from Art, Archeology, and Literature to Biology and Medical Studies to Computer Science and Physics.

Polish scholars conducted their studies at universities and research institutes across the United States, including some of the most prestigious institutions such as Harvard University, Carnegie Mellon University, Massachusetts Institute of Technology, Columbia University, Cornell University or the National Aeronautics and Space Administration (NASA).

### THE KOSCIUSZKO FOUNDATION FELLOWSHIPS

support postdoctoral research in the U.S. and are awarded to advanced post-doctoral fellows, instructors, and assistant professors (or equivalent) for 3 - 9 months.

26

### THE KOSCIUSZKO FOUNDATION GRANTS

support graduate research in the US and are awarded to graduate students and research staff who hold a master's degree but have not obtained a doctoral degree for 3 - 9 months.

20

### THE KOSCIUSZKO FOUNDATION TEACHING FELLOWSHIPS

are awarded to Polish faculty members to teach classes at US universities, for up to 9 months. The program focuses on lectures in Polish Studies, including Polish language teaching and Polish culture.

*“I am a literary scholar. Although literature is an indispensable part of our, both Polish and American, cultural heritage, it is easy to overlook its significant role and value in the present-day neoliberal economy which demands that all work should be marketable. To support cultural institutions that care about culture itself rather than its marketability is to support a cultural legacy that might otherwise not be able to survive in the present economic climate. By supporting The Kosciuszko Foundation, the donors show a profound understanding of the importance of preserving cultural legacy and knowledge. I am immensely grateful to the generous donors of the Kosciuszko Foundation for helping this very important cultural institution fulfill its noble educational mission as well as for helping me expand my cultural and intellectual horizons.”*

*“I would like to thank the donors for the scholarship. I truly appreciate their generosity. Without it, I would not be able to cover the costs of research in the U.S., and participate in a major conference in my field, where I had an opportunity to present some results of my research and receive feedback from distinguished scholars. The scholarship allowed me to reach archives inaccessible online and to meet witnesses to the history of PIASA. The collected material will enable me to complete my Ph.D. dissertation, which will be the first complex study covering the whole history of the Polish Institute of Arts and Sciences of America, and hopefully, it will contribute to studies of academic activity of the Polish WWII diaspora in the U.S.”*

*“It was the real honor and privilege to be sponsored by the Kosciuszko Foundation. Research at the world’s leading organization in the field of pulsed electric applications was a groundbreaking experience in my short career. I am convinced that this kind of support, especially for early career researchers, guides and accelerates progress in scientific work. My stay in Norfolk laid the groundwork for further research and long-term cooperation between centers in Poland and the US. In addition to scientific research, my stay in the US has completely changed my perception of this extraordinary country. This would not have been possible without your generous contribution. I have done my best to give my personal contribution to the legacy of Polish citizens in the United States.”*

## SPECIAL and TRAVEL GRANTS

# 2 SPECIAL AND TRAVEL GRANTS

In addition to the Exchange and Domestic Scholarship programs, the Kosciuszko Foundation awards numerous SPECIAL AND TRAVEL GRANTS for projects that fulfill its mission of promoting knowledge of Poland, its art, culture, and history.

Aside from strictly educational grants, the Foundation sponsors projects across the United States. These projects include art exhibitions, musical concerts, and theatrical performances, as well as literary conferences and publications. Likewise, Travel Grants help scholars participate in international conferences and workshops. In the fiscal year 2021, the Foundation awarded **\$151,372.05** in Special and Travel Grants.

CHAPTER THREE

## HELPING UKRAINIAN REFUGEES

## STANDING WITH UKRAINE

On February 24, Russia invaded Ukraine, initiating a full-scale war, thus causing a humanitarian crisis in Ukraine and Poland. From Day One, vast numbers of ordinary Poles, with astonishing generosity, aided millions of Ukrainian refugees pouring across their eastern border — sending relief aid and opening their homes to thousands of people. When the war started, the Kosciuszko Foundation’s President, Marek Skulimowski was in Poland and immediately joined thousands of Poles helping at the Polish-Ukrainian border.

Our primary mission will always be education and culture, but we must help those in suffering in times of despair. On the second day of the war, the KF Board of Trustees held an emergency meeting and decided to launch a fundraising campaign to bring relief to those who had to flee their homes, which were attacked and bombed by the Russian army. The Foundation’s members and friends

demonstrated unstinting generosity, and by the end of June, we raised nearly **1.5 million US dollars**.

The incoming donations were immediately used to provide humanitarian aid along the Polish-Ukrainian border and in Poland’s big cities. We supported the Folkowisko Foundation with \$200,000, and they delivered food and medical supplies to Ukrainian cities affected by the war, including Chernihiv, Kharkiv, Ternopil, and Lviv. They also built tent towns at border crossings, providing hot meals and medical assistance to women and children, allowing them to shelter for a bit as they waited for many hours in the freezing cold on the Ukrainian side.

The SOK Foundation, operating in Poland’s capital – Warsaw, received \$100,000 from the Kosciuszko Foundation to feed and educate those refugees who arrived in the capital. Our support enabled the SOK Foundation to work with orphans outside Warsaw (Hotel OSSA), provide Polish language classes at the Ukrainian School in Warsaw, and deliver thousands of welcome packs with essential items.

With the ongoing refugee crisis and an immense influx of students and scholars from Ukraine, the Kosciuszko Foundation-Poland created a program to assist those whose academic lives were disrupted by the war. It was named “FREEDOM STARTS WITH YOUR MIND” and included grants for Ukrainian scholars and artists. So far, we have distributed grants

*Volunteers at the Budomierz-Hrushiv border crossing helping refugees – March 2022. Photos by the Folkowisko Foundation*

of \$2,500 each to 40 Ukrainian scholars and \$1,250 to 25 Ukrainian artists who fled to Poland. As a part of the “FREEDOM STARTS WITH YOUR MIND” program, we offered free online university courses in the Humanities and Social Sciences to Ukrainian students (referred to as the Flying University). Nearly 150 Ukrainian students completed the online courses organized in partnership with members of MAG (Міжнародна асоціація гуманітаріїв) and the English Department of SUNY-Stony Brook.

As the educational needs were increasing among Ukrainian refugees in Poland in 2022, the Kosciuszko Foundation additionally supported the following programs:

- \$22,000 for the Digital Center Foundation in Poland to create open educational resources created by Polish and Ukrainian teachers working jointly, through a series of workshops and e-learning sessions. The participants - experienced teachers, will develop a variety of educational materials,

---

*“Thanks to the support from the Kosciuszko Foundation, I was able to conduct the necessary research and complete my doctoral thesis. Moreover, at the University, I had the opportunity to join the academic community, meet with scientists and students and attend lectures. This grant gave me a chance to continue my scientific work and study in Poland.”*

VIRA HOVORUKHA

---

teaching techniques, and lesson plans to be used in teaching Ukrainian children in Poland (with the focus on teaching Polish as a second language)

- \$7,000 for the Libratus School to fund a translation of educational materials for online Polish teaching for Ukrainian students in Poland.
- \$5,200 for 19 Ukrainian students in Poland to cover their educational needs.
- The Kosciuszko Foundation allocated \$20,000 for the publication of the „Different Story-Books for Children from Ukraine” - 27 titles of popular Ukrainian children’s books are being printed in 1,000 copies each and distributed for free.

You, our members, and sponsors have entrusted us with a sizeable financial resource, and it is our responsibility to report on how it has been spent as of the end of June 2022. We spent about half of what has been donated. We continue to assess the situation and advise you of how the remaining funds will be spent in the next fiscal year.

The war in Ukraine is transforming not only Europe but the entire world. Its consequences will be seen and felt over decades, so our work is a long-term project, not a temporary one. We strongly believe that by helping Ukrainian refugees in Poland and elsewhere, we are working on reconciliation between Poles and Ukrainians and building a safe and prosperous future for both nations.

*“All my family and I are very grateful to the University of Warmia and Mazury (UWM) in Olsztyn, its administration, and to Prof. Andrzej Krankowski, Head of Space Radio-Diagnostic Research Centre, and his friendly team for their help, hospitality, and patience. I am also very grateful to the Kosciuszko Foundation for its financial help. Without all of this support, it would be very hard for me to finish the book I’ve been working on “Waves in Nonlinear Layered Metamaterials, Gyrotropic, and Plasma Media,” to conduct the work on the set of presentations for international conferences and to prepare and submit the set of papers for the high-rating international journals. This help also allowed me to start working on the International Consortium that will address the Multi-Factor Interdisciplinary Wave Ionosphere Diagnostic: From ULF to Radio Range (MFWID). The universities and academic organizations from all over the world (including Ukraine, Poland, Austria, Italy, Greece, Mexico, and Australia) would participate in this event.”*

## 2021/2022 academic year EXCHANGE PROGRAMS TO POLAND

The Kosciuszko Foundation's Exchange Program to Poland provides U.S. citizens with opportunities to conduct research at various universities in Poland and to study Polish at the Jagiellonian University, Center for Polish Language and Culture in the World.

Candidates in these programs receive joint funding from the National Agency for Academic Exchange (NAWA) and from the Kosciuszko Foundation. NAWA provides a monthly stipend of 1,600 zloty per month for housing and living expenses for both programs. Students in the Year Abroad Program also receive a tuition waiver at the discretion of the Rector of the Jagiellonian University.

In addition to funding from NAWA, the Kosciuszko Foundation awards grants to each Graduate/Postgraduate candidate in the amount of \$300 per month for the approved period of studies/research not to exceed nine months.

Year Abroad candidates receive grants of \$900 per semester, from the Kosciuszko Foundation, awards are made for one semester or a full academic year.

"The amount of scholarships provided by the Kosciuszko Foundation for the academic year Fall 2021-Spring 2022 for the Studies and Research Program is **\$8,400**. The KF funding for the Year Abroad Program for the same period is 5,400, bringing the total for both programs to **\$13,800**. The Funding will be provided by The Ted and Walter Wysocki Scholarship Fund."

All applications for Exchanges Programs to Poland were screened for completeness and eligibility by the Kosciuszko Foundation's Grants Department and approved by President and Executive Director, Marek Skulimowski. Graduate/Postgraduate candidates must provide a clear and well-defined proposal for their study and research projects and must submit an invitation from the Polish educational institution where their studies and research projects are to be conducted. Year Abroad applicants must demonstrate motivation for pursuing studies in Poland as related to their educational and professional goals.

*"Thank you so much. I'm incredibly grateful for the opportunity that literally changed my life. In the future, I plan to work for Polish organizations in the US that are involved in the promotion of Polish culture in America. I have plans and ideas on how I could get involved in bringing today's traditional music and dance from Poland to the Polish communities in America."*

## TEACHING ENGLISH in POLAND PROGRAM

# TEACHING ENGLISH IN POLAND 2022

After two years break caused by the pandemic, the TEACHING ENGLISH IN POLAND program's camps started on 26th June. In the 2022 edition, there are **6 summer camps** (two weeks long each) for **430 kids**, among them **96 Ukrainians**. In charge of the coordination of camps is Ms. Emilia Gromadowska, TEIP Program Director. We organized **2 camps** exclusively for Ukrainian kids in Ocypel and Miłakowo. Other places of TEIP camps are Załęczce Wielkie and Olsztynek. Additionally, we cooperated with the organizers of a summer camp in Cieszanów for Ukrainian children from Javoriv (Yavoriv) and children from Poland. This camp is a consortium of cooperation with such partners as the AFT-American Teachers Federation,

NATAN Worldwide Disaster Relief Nonprofit, Folkowisko Foundation, and the City of Cieszanów (Carpathia Region). KF staff participated in online sessions sharing know-how on organizing these kinds of events.

The English classes and workshops during the TEIP camps were led by **50** American volunteers who bravely decided to come to Poland despite of war, which is in Ukraine. Also, Polish and Ukrainian staff are working on the integration of kids with the common goal – learning the English language in the friendliest way. Children enjoy a vacation near a lake or river, grow stronger, integrate with their Polish peers, and improve their language skills. You should see them happy, fearless! We stand with Ukraine!

## Teaching English with American Volunteers

The Kosciuszko Foundation TEIP Program

We released the first academic publication about the TEIP program. The book is titled "ENGLISH WITH AMERICAN VOLUNTEERS. ABOUT THE TEIP PROGRAM OF THE KOSCIUSZKO FOUNDATION" was published thanks to the support of FRSE.

The TEIP Program is a source of many reflections on the methodology, strategy, and tools used to teach languages and communicate about culture. This publication

is a collection of articles written by specialists – educators, psychologists, practitioners, and theoreticians affiliated with the Program. It is an attempt to analyze some aspects of the TEIP program and their possible impact on improving the quality of English language teaching, as well as shaping the students' attitudes towards social involvement. The book, edited by Prof. Grażyna Czetwertyńska and Aleksandra Kujawska, explains how to work with children and youth using the methods applied in the Teaching English in Poland Program.

The publication is in two languages - Polish and English. Link to the publication: [https:// www.frse.org.pl/czytelnia/angielski-z-amerykanskimi-wolontariuszami-teaching-english-with-american-volunteers](https://www.frse.org.pl/czytelnia/angielski-z-amerykanskimi-wolontariuszami-teaching-english-with-american-volunteers)

## TEACHING UKRAINIAN AND POLISH CHILDREN IN CIESZANOW: CALIFORNIA TEACHER JOIN U.S. DELEGATION

For two weeks, 15 American educators left their homes and their families and traveled to the Poland-Ukrainian border to provide some normalcy to the children and youth traumatized and displaced by Russia's war. The American Federation of Teachers President Randi Weingarten said, "I'm so incredibly proud of their efforts to help build safe, joyful environments where kids could just be kids again, all while learning English and having some fun under the most trying circumstances imaginable."

Kosciuszko Foundation President and Executive Director Marek Skulimowski said the idea for Summer Camp Poland came up during a conversation with Weingarten. "It is very important to organize a safe vacation time for Ukrainian children and give them a break from air raid sirens, tragic news, and misery," said Skulimowski in a press release. "The war may be over within a year, but the consequences will stay much longer. I hope it is the beginning of a productive cooperation between the Kosciuszko Foundation and AFT."

The summer camp focused on using outdoor activities and informal English immersion to provide instructional support, consistency, and normalcy for Ukrainian children facing displacement due to the war in Ukraine. The camp's daily activities were designed to offer a recreational, nurturing, and social experience to ease the war's presence in the students' lives.

In groups of two or three, teachers spent the morning teaching English to around 10 Polish and Ukrainian students. In the afternoon, the students

participated in outdoor activities like kayaking, high ropes courses or field trips. Evening activities consisted of campfires, making s'mores or disco parties. The highlights of the program included trips to Polish cities, eating ice cream with the students, and cooking workshops organized by women's associations in the neighboring villages.

Patricia Matulas Mason, a California teacher who is Polish American, said she wanted to get involved with the program because of her Polish cultural roots and because she wanted to do more to help the students affected by the war.

If she could share one takeaway from her time in Poland, it would be a reminder to the world that *"The Ukrainians are afraid of being forgotten and they just want to get that message out – that the world doesn't forget what they're going through."*

A few students wore shirts with the words "Stay Strong", and overall most were quiet and reserved at the beginning of the camp. As the days continued— their faces brightened, the laughter in the lunchroom got louder, there was more artwork hanging in the hallways, and more friendships developed. The students were learning Polish and Ukrainian words from each other too.

The Polish saying "Guest in home, God in home" was demonstrated by how welcoming and involved

the community in Cieszanow was. For example, the students helped paint part of a mural near the cultural center in town. The Mayor of Cieszanow participated in the graduation ceremony and spent time talking with the teachers and volunteers.

The Folkowisko foundation kicked things off rallying the students and teachers in the gym for an afternoon of boxing food and medical supplies to be driven over the border to displaced Ukrainians. The organization was very successful in organizing and energizing everyone.

The summer camp strengthened the connection between neighbors Poland and Ukraine, while highlighting we are all impacted by the invasion because the Polish and Ukrainian children are the future. Now the American teachers know the students' names and their favorite hobbies, and their goals to be lawyers, doctors, and business leaders.

## ANNUAL FUNDRAISING DINNER and BALL

THE KOSCIUSZKO FOUNDATION

# 85<sup>th</sup> ANNUAL FUNDRAISING DINNER & BALL

**W**e want to thank all those who supported the 2022 Kosciuszko Foundation Ball for Ukrainian refugees, especially those who helped and contributed to making this Ball a success and those who provided their services. Over 300 distinguished guests and loyal donors attended this year's Ball. We are very grateful to every single one of you for your work and support!

After two long years of the pandemic, we were delighted to see all of our guests join together for the event's true purpose. As the war continues, the needs of the refugees change, and we strive to keep providing more educational programs and grants while not forgetting about basic needs like food and medical supplies. As our speaker, Katia Roman-Trzaska said: *"We will see the effects of this war for many decades to come. That's why our work is so critical. We are not just helping Ukrainians. We are investing and raising the generations of all our countries"*.

During the evening, we ran a special donation campaign, in which our sponsor, Ms. Krystyna

Piórkowska, made a \$500 donation for each \$1,000 collected during the evening. *"I sincerely applaud all those who contributed to this worthy cause."*

Thanks to generous guests and contributors, we have raised over \$400,000 to sponsor projects of our associated charitable organizations across Poland and Ukraine doing the hard work on the ground. The proceeds will sponsor:

- Food, medical supplies, and other humanitarian aid to women and children fleeing Russian bombs
- Educational programs and grants - **"FREEDOM STARTS WITH YOUR MIND"**
- Grants for Ukrainian scholars who had to flee the war
- Free university courses, as part of **THE FLYING UNIVERSITY PROJECT**, taught by leading U.S. professors to Ukrainian students whose academic lives have been disrupted by the war
- Books in Ukrainian and Polish for children refugees escaping the war

KF  
CULTURAL  
ACTIVITIES

# 2021/2022 EVENTS by KF NYC

## ONLINE EVENTS:

The season's highlight was the "STUDYING POLAND TODAY" webinar series presented jointly by the Kosciuszko Foundation and the Project on Poland Past and Present, the initiative spearheaded by Prof. Norman Davies.

In the series' first episode, titled "SIXTY YEARS OF STUDYING POLAND," Prof. Davies spoke, in a discussion led by Prof. Robert Frost, about his career as a historian, his inspirations, enthusiasms, and his views on Poland and the writing of its history.

In the following program, "TEN COMPETING CONCEPTS OF POLISH STUDIES," Prof. Davies argued that Polish Studies, conventionally seen as a study of language and literature, should be viewed in much broader terms as a study of Poland in general.

Notable historian and author Roger Moorhouse was a guest speaker of the series' third episode, titled "POLAND: WHERE WORLD WAR II BEGAN." His talk examined Poland's fate in the opening two years of WW II, covering the German and Soviet invasions of Poland, and the two brutal occupation regimes that followed, he also addressed the question of why this period is so often misunderstood in the Western narrative of the war.

Next, Dr. Stanley Bill of Cambridge University elaborated on the importance of poetry in Polish history, focusing on the poetry by Czeslaw Milosz, Tadeusz Rozewicz, Zbigniew Herbert, and Wislawa Szymborska. The lecture "IMAGINED COMMUNITY: POETRY AND POETS IN POLISH CULTURE" examined the significance of poetic works for ideas of national community in the face of external oppression and the expression of more universal concerns.

IN JANUARY, a panel consisting of a translator of Polish literature and history Jaroslaw Garlinski, director of the Polish Studies Program at Loyola University Bozena Nowicka McLees, and Visiting Professor of Polish Language and Culture at Brown University Paulina Duda, Ph.D. discussed the **"PERSPECTIVES OF POLAND"**. The panel, moderated by K.F. Trustee Marian Kornilowicz, Esq., shared thoughts and ideas on several issues concerning Polish identity.

Distinguished historian and emeritus Professor of Holocaust Studies at Brandeis University, Prof. Antony Polonsky, was the speaker of the series' fifth episode. In his lecture **"THE CRISIS OF DEMOCRACY IN INTERWAR POLAND,"** he elaborated on why the Constitution of March 1921 failed to establish a stable political system in Poland, what replaced it, and the lessons we can draw from that chapter in Poland's history.

In the light of the Russian aggression on Ukraine and the generous help of Polish people for Ukrainian refugees that followed, the March webinar was dedicated to the discussion on Polish-Ukrainian relations and the history shared by the two countries. **"POLAND-UKRAINE: FROM CONFLICT AND RIVALRY TO NEIGHBORLIINESS"** webinar featured a talk

on the subject by Prof. Norman Davies and a specialist in Ukraine history, Prof. Frank Sysyn.

The theme of the war in Ukraine was also incorporated in the presentation **"GENDER AND WAR"** delivered in May by Dr. Malgorzata Fidelis of the University of Illinois at Chicago. Dr. Fidelis elaborated on women's roles in wartime and gender as an organizing principle in the enterprise of war.

The series' final episode **"FAMILY ROOTS IN POLAND"** featured a leading British journalist and politician, Lord Daniel Finkelstein, in a discussion moderated by Prof. Davies about his search for family roots in Poland and tumultuous periods in Poland's history.

During the past season, we also presented new programs on **POLISH LITERATURE**. In a series of two lectures, critic, editor, and translator Jaroslaw Anders discussed the life and body of work of **BRUNO SCHULZ** and **WITOLD GOMBROWICZ**, two notable writers who can be seen as two poles of Polish literary modernism. The speaker examined the life of each writer, their approach to literature, their place in post-war Polish and European writing, the critical reception of their works, and Gombrowicz's concept of Form and unique interpretation of the condition of modern man.

In the webinar **“WRITTEN IN THE MARGINS,”** poet Mira Rosenthal, Ph.D., and historian Anna Muller, Ph.D., presented their collaborative project that intertwined translations of poems by interwar Polish-Jewish author Zuzanna Ginczanka with historical narrative and personal reckoning to navigate the questions inherent in presenting a Holocaust author today.

The 2022 online programs were opened with the webinar discussion **“A NEW BRAVE WORLD: RECOVERY, RENEWAL, AND RESILIENCE IN A POST-PANDEMIC REALITY: THE ROLE OF SCIENCE.”** The program featured a line-up of distinguished speakers and scholars from both America and Poland: Prof. Malgorzata Kossowska of the Jagiellonian University, Prof. Arie Kruglanski of the University of Maryland, Prof. Jan Kubik of Rutgers University, and Prof. Piotr Klodkowski of the Jagiellonian University who served as the discussion moderator. The panelists talked about the potential social, cultural, and psychological implications of the COVID-19 pandemic in Poland, Europe, and the United States.

To mark the anniversary of the passing of the Constitution of May 3 of 1791, international attorney, social scientist, and academic researcher Dr. Elizabeth Zechenter and K.F. Trustee Marian Kornilowicz, Esq. gave a presentation **“MAY 3RD CONSTITUTION: IT’S GENESIS, MEANING, AND LEGACY”** on the Constitution’s genesis, its merits, the challenges it faced, and the role it played in the history of Poland. They also showcased how this document

and enlightened Polish legal thought contributed to developing modern democratic traditions in the Western world.

## IN-PERSON EVENTS:

Although concerning the pandemic, the past year presented more questions than answers, the Foundation's team was determined to bring back live events to the KF House. **IN SEPTEMBER**, the Foundation hosted the exhibition of paintings: **SANDI SLOANE JOANNA BORKOWSKA MATERIAL/IMMATERIAL** curated by Lilly Wei, which attracted many new art enthusiasts and a favorable review in "Brooklyn Rail" by critic Robert Morgan, Ph.D. In it, he wrote: *"I have followed the abstract paintings of Sandi Slone, a Professor at the School of the Museum of Fine Arts in Boston, for several years, but the work of the Polish emigrant painter, Joanna Borkowska, was a first-time discovery when I saw this exhibition at the Kosciuszko Foundation (...). One cannot resist spending time with these works."*

**IN OCTOBER**, we organized an exhibit showcasing a series of relief works by **HENRYK STAZEWSKI**, one of the central figures in the history of Polish abstraction. Stazewski had a career that spanned over seven decades. During the 1920s and 1930s, he was the co-founder of avant-garde collectives

Blok (1924-1926), Praesens (1926-1929), and a.r. (1929-1936), contributing to the development of Polish Constructivism and cultivating relationships with contemporary avant-garde movements. Curated by Patryk P. Tomaszewski, the exhibit included works on loan from the private collection of Andrzej and Grazyna Kenda. It was the first exhibition of Stazewski's oeuvre in New York explicitly dedicated to his reliefs.

At the end of the month, accomplished musicians from Poland, Bartosz Koziak, cello, and Grzegorz Mania, piano, gave a recital of works by **SIMON LAKS, KAROL RATHAUS, and MIECZYSLAW WEINBERG**. The recital was financed within the scope of the Multiannual Program Independent 2017-2022, as part of the "Cultural Bridges" subsidy program of the Adam Mickiewicz Institute."

One could have learned a lot by attending a series of talks and discussions held at the Foundation **IN NOVEMBER**. First, Norman Kelker gave an informative presentation on the remarkable life story of **ERNESTINE POTOWSKA ROSE (1810-1892)**, a Polish-born Jewish woman who came to the U.S. and became a leader of the 19th century American women fighting for the right to vote. Hailed as “The Queen of the Platform” for being the best female orator of mid- 19th century America, by 1850, she was central to the women’s rights, antislavery, and free thought movements, in which she was the only foreigner, the only atheist, and the only Jew. Then, John Pomfret, an author, and a former correspondent for the Washington Post, spoke about his new book: **“FROM WARSAW WITH LOVE,”** telling the true story of the Polish spies helping the CIA rescue six U.S. officers trapped in Iraq in the 1990s.

Prof. Maria Siemionow, a world-renowned scientist, microsurgeon, and transplant pioneer, who in 2008 led a team of surgeons that performed the first near-total face transplant in the U.S. at the Cleveland Clinic was a guest speaker at the event presented as part of the K.F. Collegium of Eminent Scientists Lecture Series. In her talk **“MY JOURNEY TO SUCCESS IN THE U.S.”**, she spoke about the experience that she had gained at several international centers specializing in the developing field of reconstructive microsurgery. She shared the scientific, surgical, ethical, and philosophical challenges encountered during the journey in preparation for the U.S. first face transplantation.

**IN DECEMBER**, the Foundation hosted an evening with Prof. Z. Anthony Kruszewski (recipient of the K.F. 2018 Medal of Recognition) and Prof. Beata Halicka, the author of **“BORDERLAND**

**BIOGRAPHY: Z. ANTHONY KRUSZEWSKI IN WARTIME EUROPE AND POSTWAR AMERICA."**

The book tells the extraordinary life story of Prof. Kruszewski, a Polish scout fighting in WWII, then a Prisoner of War in Western Europe, and finally, a penniless immigrant in post-war America who eventually became a world-renowned academic and a pioneer and a leading figure in Borderland Studies.

*"It is to Kosciuszko Foundation's great credit that it hosted a performance-reading of the new play "Zaglada" by Richard Vetere," said in the opening line of his review critic Roman Markowicz. He added that "Mr. Vetere created a valuable, if not flawless, play that should force the viewer to ruminate on the subject of guilt, redemption, justice, and forgiveness. (...) This is a play that demands vibrant discussion (...). When the knowledge of the Holocaust is still scant among the general population, any attempt to bring closer its horrors, put them in context, illuminate and explain them is worthy and laudable." The "ZAGLADA" presentation at the Kosciuszko Foundation's house in N.Y. held on February 10 was the play's first public performance. The production featured Jon Avner, Jennean Farmer, Iza Laskowska, Lou Martini, Jr., and Maja Wampuszyc; it was directed*

by Alice Jankel. Rick Baitz composed music for the play. Dr. Eva Fogelman, an internationally known Pulitzer Prize-nominated author, psychologist, and filmmaker, moderated a discussion that followed the presentation.

**ON APRIL 27**, the Kosciuszko Foundation, together with the Transregional Center for Democratic Studies (TCDS ) and the Democracy Seminar at The New School for Social Research, hosted the panel discussion dedicated to Krzysztof Czyzewski's new book **"TOWARD XENOPOLIS: VISIONS FROM THE BORDERLAND."** The panel consisted of renowned scholars: Timothy Snyder, Richard C. Levin Professor of History, Yale University, Irena Grudzińska Gross, Literary critic and historian of ideas, Princeton University and the Institute of Slavic Studies, Polish Academy of Sciences, Jeffrey C. Goldfarb, Michael E. Gellert Professor of Sociology Emeritus at The New School for Social Research and chair of the Democracy Seminar, The New School for Social Research, and Elzbieta Matynia, Professor of Sociology and Liberal Studies, Director of Transregional Center for Democratic Studies, The New School for Social Research. The author, Krzysztof Czyzewski is one of the initiators of the Borderland Foundation in Sejny, Poland.

CHAPTER EIGHT

## AFFILIATED GROUPS

## THE NATIONAL ADVISORY COUNCIL

The National Advisory Council is composed of several individual members of the Kosciuszko Foundation, as well as presidents of the Kosciuszko Foundation's nine Chapters. The Council is designed to benefit from broad representation throughout the United States providing the Board of Trustees with valuable advice on how to expand membership and donations, by highlighting and discussing current trends amongst the Foundation's target groups, and developing ideas on how to attract new membership and donations given these trends. Its members are longtime Foundation members who have their finger on the pulse of the Foundation, its philosophy, and its future.

## CHAPTERS OF THE KOSCIUSZKO FOUNDATION

The Kosciuszko Foundation chapters play a vital role in maintaining the Foundation's reputation as a nationwide organization. Run strictly by local volunteers who commit considerable time and effort to the task of soliciting members in their geographic areas, organizing local concerts, awards banquets, and other key fundraising events, representatives of nine Kosciuszko Foundation Chapters act as local ambassadors, promoting the Foundation's mission in local regions.

Through the participation of local chapter presidents on the National Advisory Council, chapters also help keep the Board of Trustees, officers, and staff informed of local trends in local communities.

## THE PRO ARTE LEAGUE

For all those visitors to the Foundation House who find it an aesthetic and hospitable place to visit, they can thank the Pro Arte League.

Founded by women members of the Kosciuszko Foundation in 1970 with a mission to raise funds for the preservation and beautification of the public rooms for the Kosciuszko Foundation house, the Pro Arte League has played an indispensable role in keeping the Foundation House in its current pristine condition. Beginning with fashion show fundraisers in the early part of its history, the League now uses its annual fundraising luncheon as a showcase for young Polish-American musicians and other fine Polish and Polish American performing artists.

## THE POLISH AMERICAN TEACHERS ASSOCIATION

Polish American Teachers Association (PATA) was founded in 1973 in order to help accurately inform the American public about Poland and the role and contributions of Polish Americans in American society. PATA's relationship with the Kosciuszko Foundation began shortly after its formation.

PATA sponsors a rich schedule of events and activities, including essay and visual arts competitions. One of its more popular programs includes a storytelling competition, during which students of Polish heritage who attend Polish supplementary schools gather at the Kosciuszko Foundation in March to tell stories from Polish folklore.

PATA also holds the popular Annual Mikolajki / St. Nicholas Day celebration, which teaches children about traditional Polish Christmas celebrations. PATA has also been a reliable supporter of the Foundation's Teaching English in Poland Program through regular cash contributions as well as Program volunteers.

**Independent Auditor's Report**

The Board of Trustees of  
The Kosciuszko Foundation, Inc.

**Opinion**

We have audited the accompanying consolidated financial statements of The Kosciuszko Foundation, Inc., (the "Foundation"), which comprise the consolidated statement of financial position as of June 30, 2022 and 2021 and the related consolidated statements of activities, cash flows and functional expenses for the years then ended, and the related notes to the financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of The Kosciuszko Foundation, Inc. as of June 30, 2022 and 2021, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

**Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but not absolute assurance, and therefore is not a guarantee that an audit conducted in accordance with Generally Accepted Auditing Standards (GAAS) will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

**THE KOSCIUSZKO FOUNDATION, INC.**  
**Notes to Consolidated Financial Statements**  
**June 30, 2022 and 2021**

**Note 1 - Organization**

The Kosciuszko Foundation, Inc. (the Foundation) was incorporated on December 23, 1925 as a charitable corporation under provisions of the not-for-profit corporation law of the State of New York. The Foundation has been established for educational, scholarship, and cultural purposes. Its objectives are to:

- a. Foster among the American people knowledge and appreciation of Polish culture, history, and traditions;
- b. Strengthen understanding, goodwill, and friendship between the people of the United States of America and the people of Poland by promoting closer educational and cultural relations;
- c. Enhance knowledge of the Polish contribution to world civilization in general and to America in particular;
- d. Encourage and promote the study of Polish culture, history, language, and traditions of the United States of America; and
- e. Foster among Americans of Polish ancestry a deeper understanding and appreciation of their cultural heritage, thereby enriching the pluralistic culture and traditions of the United States of America.

The Foundation conducts and/or sponsors programs, projects, and activities designed to support its purposes and objectives. Its primary sources of revenue are contributions and investment return.

**Warsaw Office**

The Foundation maintains an office in Warsaw as a representative office providing information about the Foundation's exchange program with the U.S. and provides assistance to Americans studying in Poland under the auspices of a Foundation sponsored program or activity.

**Washington Center**

The Foundation's Center in Washington D.C. promotes Polish culture in America and encourages cooperation between the United States and Poland. The Center houses a museum of Polish art that is open to the public daily, and provides a venue for local Polish-American events through a wide range of activities, including films, concerts, exhibitions, educational programs, publications, and seminars.

**Polish Foundation**

During the fiscal year ended June 30, 2011, the Foundation filed in Poland Articles of Association under the Polish Foundation Act of April 4, 1984 to establish "The Kosciuszko Foundation Poland - Fundacja Kosciuszkowska Polska." This organization is controlled by the United States Kosciuszko Foundation and has similar purposes. All activities of this organization are reported to the U.S. organization and included in these consolidated financial statements. In March 2018,

**THE KOSCIUSZKO FOUNDATION, INC.**

**June 30, 2022 and 2021**

**Note 1 – Organization (continued)**

the Foundation and the Polish Foundation signed a cooperation agreement in order to facilitate and improve their continuing non-profit activities and cooperation.

**Chapters**

There are nine Chapters of the Foundation: Philadelphia, Pittsburgh, Washington, DC, Western New York (Buffalo), Chicago, Rocky Mountain (Denver), New England (Springfield), Texas (Houston), and Northeast Ohio (Cleveland).

**Note 2 - Summary of Significant Accounting Policies**

**Basis of Presentation**

The financial statements of the Foundation have been prepared on the accrual basis and in accordance with accounting principles generally accepted in the United States of America as applicable to not-for-profit organizations.

The Foundation's net assets and revenues, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the Foundation and changes therein are classified and reported as follows:

***Net assets without donor restrictions*** - Net assets that are not subject to donor-imposed stipulations.

***Net assets with donor restrictions – time or purpose*** - Net assets subject to donor-imposed stipulations that will be met either by actions of the Foundation, fulfillment of donors' stipulations, or the passage of time.

***Net assets with donor restrictions - endowment*** - Net assets subject to donor-imposed stipulations that they be maintained permanently. Generally, the donors of these assets permit the use of all or part of the income earned on related investments for general or specific purposes.

Revenues are reported as increases in net assets without donor restrictions unless their use is limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulation or by law. Expirations of time or purpose restrictions (i.e., the donor-stipulated purposes have been fulfilled and/or the stipulated time period has elapsed) are reported as net assets released from restrictions.

**June 30, 2022 and 2021**

**Note 2 – Summary of Significant Accounting Policies (continued)**

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Scholarships and Grants**

Scholarships and grants are reported as a liability and expense when the recipients have satisfied all conditions of acceptance.

**Investments**

Investments in equities, iShares and exchange traded mutual funds are valued using quoted market prices. Realized gains are calculated by comparing proceeds to cost under the average cost method. Purchases or sales are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

**Cash and Cash Equivalents**

Cash and cash equivalents include cash in the Foundation's checking accounts both in the United States and Poland.

**Inventory**

Inventory, which consists primarily of dictionaries and text books, and is included in prepaid expenses and other assets in the accompanying statements of financial position, is stated at lower of cost or net realizable value with cost determined on a first-in, first-out basis.

**Property, Plant, and Equipment**

Property, plant and equipment are stated at cost less accumulated depreciation, except for donated items, which are recorded at the fair value on the date of donation. Individual items costing under \$2,000 are not capitalized. Depreciation is provided over the estimated useful lives of the assets using the straight-line method. The number of years used in determining depreciation is as follows:

Furniture, fixtures, and equipment	3 - 7 years
Building and improvements	20 - 40 years

**THE KOSCIUSZKO FOUNDATION, INC.**  
**Notes to Consolidated Financial Statements**  
**June 30, 2022 and 2021**

**Note 2 – Summary of Significant Accounting Policies (continued)**

**Income Taxes**

The Foundation is exempt from Federal income taxes under Section 501(c)(3) of the Internal Revenue Code. It is further classified as a publicly supported organization.

The Foundation recognizes the effect of income tax positions only if those positions are more likely than not to be sustained. Management has determined that the Foundation has no uncertain tax positions that would require financial statement disclosure and/or recognition. The Foundation is no longer subject to examination by the applicable taxing jurisdictions for years prior to June 30, 2019.

**Functional Allocation of Expenses**

The costs of providing the various programs and other activities have been summarized on a functional basis. Accordingly, certain costs have been allocated among the programs and supporting services benefitted. Salaries and benefits are allocated based on estimated time spent by employees. Cost of the K.F. House in New York are allocated based on salaries of New York employees.

**Contributions Receivable**

Unconditional promises to give (pledges) are reported as revenues in the period pledged. In the case of estates, the contribution is recorded when the will has been admitted to probate and the amount is reasonably determinable. Contributions expected to be received after one year are discounted to their present value. Amortization of the discount is recorded as an additional contribution in accordance with the donor-imposed restrictions, if any, on the contribution.

**Art Collections**

The Foundation has an extensive collection of artwork and other artifacts, which are the results of numerous donations over the years. Donated artwork or other artifacts are capitalized at their appraised or fair value on the accession date. If collection items are sold, the proceeds from the sale are used to acquire other collection items. Gains or losses on the deaccession of collection items are classified on the statements of activities as with or without donor restrictions, if any, at the time of accession.

In June 2015, the art collection in New York was appraised for insurance purposes and the fair value approximated \$5 million. The art collection at the Washington Center received during fiscal 2010 is recorded at approximately \$400,000. During 2020 the Foundation received \$5,000 of donated art. In 2021, the Foundation donated \$5,000 of its art collection to another charity.

During the year ended June 30, 2021, the Foundation received a donation of a rare antique piano with an appraised value of \$95,000. It was originally anticipated that the Foundation would use the piano after making some repairs. Accordingly the piano was recorded as equipment. During 2022, the Foundation determined that the cost to repair the piano was too expensive. The piano was reclassified to art collection.

**Note 9 - Endowment**

The Foundation's endowment consists of over one hundred individual funds established for a number of purposes. The endowment includes donor-restricted funds, beneficial interests in charitable trusts and annuity funds, and original gifts held long-term for scholarships and grants.

**Interpretation of Relevant Law**

Prior to September 17, 2010, the Board of Trustees of the Foundation had interpreted the Uniform Management of Institutional Funds Act (UMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classified as endowment funds (a) the original value of gifts donated to the endowment funds, (b) the original value of subsequent gifts to the endowment funds, and (c) accumulations to the endowment funds made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

**June 30, 2022 and 2021**

**Note 9 – Endowment (Continued)**

On September 17, 2010, New York State enacted the New York Prudent Management of Institutional Funds Act (NYPMIFA). Unlike UMIFA, the new law allows not-for-profits to spend endowment funds below their “historic dollar value” if the governing body (Board of Trustees) determines that the spending is prudent in accordance with various factors. Also, in accordance with the act, the Foundation, where possible, has contacted donors of endowment funds with gifts made prior to September 17, 2010, and gave them the choice of following UMIFA or NYPMIFA rules.

The remaining portion of the donor-restricted endowment funds that is not classified as endowment funds is classified as time or purpose funds until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by the Act.

The following represents a description of the endowment net asset composition, excluding pledges and estates as of June 30, 2022 and 2021:

	<u>Time or Purpose</u>	<u>Endowment</u>	<u>Total</u>
Donor-restricted endowment funds - 2022	<u>\$ 15,381,557</u>	<u>\$ 24,987,187</u>	<u>\$ 40,368,744</u>
Donor-restricted endowment funds - 2021	<u>\$ 20,619,275</u>	<u>\$ 24,228,311</u>	<u>\$ 44,847,586</u>

**Spending Policy**

The Foundation has a policy of appropriating a certain percentage of its portfolio for scholarship distribution annually. Scholarship distribution for fiscal 2022 and 2021 was based on 5.0% and 4.5% of its entire portfolio value. In fiscal year 2023 the scholarship distribution is set at 5.0%.

In addition, the Foundation has a policy of appropriating from .5% to 2% of its entire portfolio value for its administrative fee. The percentage is based on a rolling 3 year (fiscal year) average of portfolio value and is set based on the financial needs of the Foundation in a given year.

**Note 10 - Beneficial Interest in Perpetual Trusts**

The fair value of funds that are held in perpetuity by third parties where the Foundation is the income beneficiary is included on the statements of financial position. The following is a summary of such trusts at June 30, 2022 and 2021:

Trust	2022		2021	
	Fair value of securities held by third parties	Investment income received during the year	Fair value of securities held by third parties	Investment income received during the year
Stanley W. Wasil	\$ 501,694	\$ 7,920	\$ 577,867	\$ 19,118
Mary R. Koons	1,022,778	52,500	1,264,817	52,500
	<u>\$1,524,472</u>	<u>\$ 60,420</u>	<u>\$ 1,842,684</u>	<u>\$ 71,618</u>

**Note 11 - Fair Value Measurements**

The Foundation follows accounting principles generally accepted in the United States of America ("US GAAP") on Fair Value Measurements which defines fair value and establishes a fair value hierarchy organized into three levels based upon input assumptions used pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable inputs and are used to the extent that observable inputs do not exist.

The Foundation follows US GAAP guidance which removed the requirements to categorize within the fair value hierarchy alternative investments where fair value is measured using the Net Asset Value ("NAV") per share as a practical expedient.

	<u>\$39,663,483</u>		<u>\$44,347,669</u>	

The investments, even in the alternative class, are funds with daily liquidity and are actively traded.

**Note 12 - Retirement Plan**

The Foundation reinstated its defined contribution pension plan effective July 1, 2014. The plan covers substantially all employees who have completed one year of service. The Foundation will contribute 5% of each employee's salary and make an additional matching contribution up to 5% of salary. Total expense for the years ended June 30, 2022 and 2021 was \$57,853 and \$57,071, respectively.

**Notes to Consolidated Financial Statements**  
**June 30, 2022 and 2021**

**Note 13 – Concentration of Risk**

During 2022 and 2021, the Foundation had U.S. cash in banks exceeding federally insured limits. The Foundation manages this risk by using large, established financial institutions.

**Note 14 – Liquidity and Availability of Financial Assets**

The following reflects the Foundation's financial assets as of June 30, 2022 and 2021 reduced by amounts not available for general use within one year of that date and adjusted for estimated earnings from beneficial interests in perpetual trusts and endowment spending.

	2022	2021
Investments, at fair value	\$ 39,663,483	\$ 44,347,669
Cash and cash equivalents	1,118,431	449,628

	43,752,507	48,258,602
Less:		
Endowment	(24,987,187)	(24,228,311)
Time or purpose restricted	(15,381,557)	(20,619,275)
Add:		
For the year ending June 30, 2023/2022:		
Estimated income from beneficial interest in perpetual trusts	60,000	70,000
Estimated endowment draw	1,350,000	1,350,000
	\$ 4,793,763	\$ 4,831,016

The Foundation monitors its cash needs and sets its budget and spending policy based on current conditions.

**Note 15 – COVID-19**

The worldwide Coronavirus (COVID-19) pandemic continues to impact travel, cultural events and general economic conditions. The pandemic has caused restrictions on travel and cultural events impacting the Foundation and its scholarships. Management cannot reasonably estimate the impact to future results of operations, cash flows and financial conditions at this time.

**Note 16 – Loan**

In May 2020, the Foundation received a \$145,672 Paycheck Protection Program loan (PPP Loan) from the SBA. Having met the conditions, the loan was forgiven during the year ended June 30, 2021. The Foundation also received a second PPP loan in the amount of \$144,040 in February 2021. Having met the conditions, this loan was forgiven in November 2021.
